

Heaviest Holiday Travel Periods: 2014

The 75 permanent sites, which are the total number of sites with a minimum of six months of data, were used to calculate the holidays having the highest seven-day periods of traffic. The highest seven-day holiday periods and the highest day within the seven-day holiday period (total traffic at all permanent site stations) are shown on the chart below:

The chart indicates that Independence Day had the highest seven-day holiday period in 2014 with a total volume of 9,574,113. Labor Day ranked second (9,392,920) followed by Christmas (9,035,741) and Memorial Day (8,798,630). Thanksgiving and New Year's Day ranked fifth (8,477,816) and sixth (8,175,417) respectively.

The highest day during a seven-day holiday period in 2014 was the Thursday before Independence Day (July 3, 2014), which had a volume of 1,631,646. The second highest day was the Friday before Labor Day (August 29, 2014), which had a volume of 1,613,433. The Tuesday before Thanksgiving Day (November 25, 2014), ranked third with 1,610,112, while the Tuesday before Christmas Day (December 23, 2014), ranked fourth with 1,602,349. The Friday before Memorial Day (May 23, 2014) ranked fifth with 1,546,280, while the Saturday before New Year's Day (December 27, 2014) ranked sixth with 1,451,361.
