- First radio broadcast
- First professional football game
- James Family invented the Slinky in 1946 in Hollidaysburg
- The banana split was invented in Latrobe in 1904
- First American Stock Exchange
- First Women's Medical College

Friends and Fellow Pennsylvanians:

More than 200 years ago, America's founders came to Pennsylvania to create a new nation. It was here that our Independence and our Constitution were drafted here, in Philadelphia. The pioneers began their brave journey to the nation's unknown western prairies from the gateway town of Pittsburgh. The young nation defended her freedom on the waters of Lake Erie and the battlefields of Gettysburg. And the industrial revolution was powered by oil, coal, steel and railroads in cities like Scranton, Johnstown, Altoona and Allentown.

Today, Pennsylvania is still a place where great things get started. The nation's fourth-largest highway system can take you to our 67 scenic state parks, historic sites and over 55,000 bridges—all maintained for safe, comfortable travel. Our number one transportation priority is the safety of the nearly 12 million Pennsylvania citizens and the millions of visiting guests from neighboring states and foreign nations who enjoy our hospitality throughout the changing seasons of the year.

This map will help you discover some of the wonderful geographic and cultural diversity, from crystal mountain lakes and streams to deep forests, friendly small towns to exciting big cities, historic landmarks to world-class museums.

And I want to wish you a safe and enjoyable trip. We know that you'll find Pennsylvania a great place to visit, and we're proud to say, "America Starts Here."

Sincerely,

Robert P. Casey, Governor
Commonwealth of Pennsylvania
